

ON ARRIVAL PORTFOLIO

1. **TAG Heuer Avant Garde Eyewear**

We know TAG Heuer is THE reference in prestigious sports watches and chronographs. But you did not know they have now created an eyewear collection. Drawing from its active commitment in the world of sports, these are the most accurate sports glasses in the market, combining high tech materials, integrated design, outstanding ergonomics and comfort. Known for its innovation, TAG Heuer has launched 'Panorama', the world's first panoramic, corrective eyeglasses, they have produced the first polarized, photochromic and oleophobic, polycarbonate sun lens in the market, and introduced revolutionary 'Night Vision' glasses. They even worked with Scuderia Ferrari Formula 1 driver, Kimi Räikkönen, to design the very cool 'Speedway' sunglasses range.

4. **Classic Maritime Replicas**

There is something fascinating about miniature versions of large objects, especially when they are made with painstaking attention to the tiniest details. Classic Maritime Replicas is a company dedicated to boating and nautical design in their creation of the exact, best quality, handcrafted replicas of classic 20th century powerboats, yachts and tall ships. They use carefully selected materials such as seasoned hardwoods like teak, mahogany, rose and cherry wood, brass and polished chrome fittings and hand-stitched upholstery, in a process that takes hundreds of hours to complete. We liked the 1960s powerboats of the Italian/French Riviera the best!
